TRAIN THE TRAINER FORKLIFT CERTIFICATION

✓ Specific to your Operation and Equipment
✓ Fulfills OSHA Requirements

In this comprehensive one-day course you will learn what the OSHA requirements are, how they affect your company, and how to comply with the standards. This course will give you the tools and knowledge needed to return to work and establish an "in-house" training program for forklift operators that is specific to your company's operation and equipment types, while meeting the OSHA requirements.

OSHA states "All operator training shall be conducted by persons who have the knowledge, training, and experience to train and evaluate others."
